ABORIGINAL LAND RIGHTS (NORTHERN TERRITORY) ACT 1976

**REPORT OF THE ABORIGINAL LAND COMMISSIONER
FOR THE YEAR ENDED
30 JUNE 2023**

ANNUAL REPORT

1. This report is furnished to the Minister for Indigenous Australians (the Minister) pursuant to section 61(1) of the *Aboriginal Land Rights (Northern Territory) Act 1976* (the Act) which provides that each Aboriginal Land Commissioner shall, as soon as practicable after 30 June in each year, prepare and furnish to the Minister a report of his or her operations during the year that ended on that date.

THE ABORIGINAL LAND COMMISSIONER

2. During the year under review, the Office of Aboriginal Land Commissioner was held by the Hon John Mansfield AM KC on a part time basis. The Hon John Mansfield AM KC was originally appointed under section 52(1) of the Act on a part-time basis for the period 23 November 2011 – 30 June 2013. He was subsequently re appointed by the Governor-General on a part-time basis for the periods 1 July 2013 to 30 June 2016; 1 July 2016 to 30 June 2019; 10 July 2019 to 9 July 2021 and 10 July 2021 to 9 July 2023.
3. It is appropriate to note that following the expiry of his period of office on 9 July 2023, the Hon John Mansfield will be deemed to continue to hold the office of Commissioner for the purpose of completing the performance of functions under the Act commenced but not yet completed before the period of office expired pursuant to section 52(4) of the Act.

FUNCTIONS AND POWERS OF THE ABORIGINAL LAND COMMISSIONER

4. The Aboriginal Land Commissioner is a statutory officer of the Commonwealth appointed to perform functions outlined in section 50 of the Act. The Commissioner's functions include undertaking inquiries into traditional land claims in the Northern Territory of Australia. Related reports, containing findings and recommendations, are provided to the Commonwealth Minister responsible for the administration of the Act and the Administrator of the Northern

Territory. The responsible Commonwealth Minister may also request that the Commissioner provide advice on any other matter relevant to the operation of the Act.

5. The major functions of the Commissioner are set out in section 50(1) of the Act, which can be viewed at:
<https://www.legislation.gov.au/Details/C2022C00364>

ADMINISTRATIVE ARRANGEMENTS

6. During the year under review, the Office of the Aboriginal Land Commissioner operated from Jacana House, 39 41 Woods Street, Darwin, in premises occupied by the National Indigenous Australians Agency (NIAA).
7. The terms and conditions of the Commissioner's appointment are determined by the Governor-General.
8. During the reporting period, administrative arrangements for the Commissioner were provided by NIAA.
9. The Office of the Aboriginal Land Commissioner can be contacted by email at AboriginalLandCommissioner@official.niaa.gov.au and by phone on (08) 7972 4237. The Commissioner's website is accessible at <https://www.niaa.gov.au/indigenous-affairs/land-and-housing/aboriginal-land-commissioner>.

THE LAND CLAIM PROCESS

10. The Act commenced on 26 January 1977. A total of 249 land claim applications have since been made. As a result of amendments to the Act made in 1987 and 2006 (notably sections 50(2A) and 67A(6)(a)) no new application has been made since 4 June 1997.
11. The tables in Appendix 1 (which are described in detail later in the report) disclose that of the 249 applications lodged:
 - a. 93 have been the subject of inquiries and reports;
 - b. 2 are currently the subject of incomplete inquiries; they are referred to in [17] – [18] of this report;
 - c. 149 have been disposed of either by way of withdrawal or some other process not involving an inquiry; and
 - d. 5 are currently the subject of settlement negotiations which may result in the applications being disposed of without an inquiry.

12. During this reporting period, five claims included in [11(a)] were the subject of reports and are referred to in [14] – [16] of this report.
13. The Commissioner, together with key parties, also made progress towards finalising the 7 unresolved applications in [11(b)] and [11(d)] (either by inquiry and report by the Commissioner or by agreement and a request for scheduling). Apart from the 2 incomplete inquiries, it is expected that the 5 applications in [11(d)] will be resolved with no further action on the part of the Commissioner. The reasons for that are set out in [19] – [23] of this report.

LAND CLAIM APPLICATION HEARINGS

14. The Peron Islands Area Land Claim (No. 190) inquiry was completed during the reporting period. The Commissioner’s report was delivered to the Minister on 5 May 2023.
15. The Wulna (Northern Territory Portion 2001) Land Claim (No. 155) inquiry was completed during the reporting period. The Commissioner’s report was delivered to the Minister on 2 June 2023.
16. The Daly River Region, Douglas/Daly River Region and Daly River Region II Land Claims (Nos. 172, 183, and 235) inquiry was completed during the reporting period. The Commissioner’s report was delivered to the Minister on 26 June 2023.
17. The inquiry into the Cobourg Peninsula Land Claim (No. 6) was commenced in 2021 and continued in this reporting period. As noted in the Annual Report for the Year ended 30 June 2022 at [16], the inquiry was initially limited to an area within the claim area described as the ‘Disputed Area.’ The remaining area, termed the ‘Non-Disputed Area’, was to be subject to settlement negotiations between the Northern Territory and Traditional Owners. During the present reporting period it became clear that some further evidence on traditional ownership in relation to a small, contested area just outside of the boundary of the Disputed Area was necessary. A hearing of traditional ownership evidence was held in Darwin on 3-4 October 2022. In November 2022 it then became evident that the anticipated agreement about the traditional ownership of the Non-Disputed Area would not eventuate. By directions on 17 November 2022 the Commissioner extended the inquiry of traditional ownership to include the Non-Disputed Area also referred to at [16] of the previous Annual Report. A further hearing of traditional ownership evidence in relation to the Non-Disputed Area was held in Darwin on 11-14 April 2023. The entire area of the land claim, including both the Disputed and Non-Disputed Areas, is now subject to inquiry. The Commissioner also received some further

evidence in respect of detriment by submission during the reporting period. The evidence and submissions on the claim area generally were completed on 16 June 2023. The Commissioner will report to the Minister in the 2023-2024 reporting period.

18. An inquiry into the Finnis River Region Land Claim (No. 237) was commenced in the reporting period after it became clear that a mediation between parties as referred to in [20] of the Annual Report for the Year ended 30 June 2022 would not be possible. It became a complex inquiry due to competing claims by different groups or families claiming to be the traditional Aboriginal owners of the claim area. The inquiry will continue in the following reporting period.

LAND CLAIM APPLICATIONS NOT SUBJECT TO INQUIRY

19. In previous reporting periods, the Commissioner issued notices to the Northern Land Council under section 67A(7) of the Act, requesting information in respect of four applications: Finnis River Region Land Claim (No. 237), Upper Daly (Repeat) Land Claim (No. 128), Ban Ban Springs Area Land Claim (No. 182), and Coomalie Shire/Deepwater Area Land Claim (No. 238). As noted in [18], the Finnis River Region Land Claim (No. 237) is now subject to an inquiry. The time to provide that information for the other 3 claims was extended from time to time. It has not been necessary to consider whether to finally determine those 3 claims by reason of any failure to provide the requested information.
20. Key parties progressed settlement negotiations but did not finalise agreements in respect of those 3 claims included in [11(d)] during the reporting period. On 8 December 2022 the Northern Land Council notified the Commissioner that a Deed of Settlement in relation to the Upper Daly (Repeat) Land Claim (No. 128) had been executed, but that a request had not yet been made to the Minister to add the land claim area to Schedule 1 of the Act. As that agreement has been reached, the Commissioner also has no need to commence an inquiry. In due course, it is anticipated that the claim will be included in the category of claims resolved other than by way of an inquiry.
21. During the reporting period, the Commissioner extended the period for the claimants through the Northern Land Council to respond to notices issued under section 67A(7) of the Act in respect of Ban Ban Springs Area Land Claim (No. 182) and Coomalie Shire/Deepwater Land Claim (No. 238). On 17 August 2022 the parties notified the Commissioner that they had reached an in-principle agreed settlement in relation to both claims. On 22 May 2023 the Northern

Land Council notified that execution of the Deed of Settlement was in progress and is expected to be executed by the Northern Land Council and Northern Territory in the next reporting period. Again, as that agreement has now been confirmed, the Commissioner has no need to commence an inquiry. In due course, it is anticipated that the claims will be included in the category of claims resolved other than by way of an inquiry.

22. The other 2 claims comprising the 5 claims in category [11(d)] above are the Kenbi (Cox Peninsula Section 12) Land Claim (No. 127) and the Wakaya Alyawarre (Repeat) Land Claim (No. 130). The Kenbi (Cox Peninsula Section 12) Land Claim (No. 127) was in respect of an area of land to be transferred to the Kenbi Land Trust as part of the settlement of the Kenbi (Cox Peninsula) Land Claim (No. 37) which was the subject of Report No 59 on 12 December 2000. The Northern Land Council on behalf of the claimants notified the Commissioner on 6 March 2023 that the land claim will be withdrawn when agreed actions associated with the resolution of Application No. 37 have been finalised [it is noted that, subsequent to the current reporting period, the Northern Land Council by notice to the Commissioner on 4 July 2023 indicated that the steps to implement the agreed resolution of the Kenbi (Cox Peninsula Section 12) Land Claim No. 127 will have been completed by 31 August 2023, so that it will then be withdrawn].
23. The Central Land Council and the Northern Territory executed an Indigenous Land Use Agreement (ILUA) on 4 November 2019 and 11 November 2019 respectively, addressing settlement terms in respect of that part of the Wakaya Alyawarre (Repeat) Land Claim (No. 130) application that is over the Canteen Creek Community. On 18 November 2019, a letter from the Central Land Council was lodged with the Commissioner withdrawing the application in respect of the relevant part of the land claim, consistent with the ILUA. The claim over that area is taken to be finally disposed of. The remainder of the application is the subject of a request to the Minister from the Central Land Council, supported by the Northern Territory, to add the land claim area to Schedule 1 of the Act.

DETAILS OF LAND CLAIM APPLICATIONS

24. Appendix 1 to this report contains details of all applications that have been made pursuant to section 50(1)(a) of the Act. Part I of the Appendix lists the applications in chronological order whereas Part II provides an alphabetical list. The tables which follow Part I show the current status of each application.

25. Table 1 to Appendix 1 lists the reports that have been submitted pursuant to section 50(1)(a)(ii). 93 applications have been the subject of completed inquiries and reports.
26. Table 2 to Appendix 1 deals with applications which have been disposed of without an inquiry, to the extent that the Commissioner has no further function to perform under section 50(1) of the Act. In some cases the claimed land does not fit the description in section 50(1)(a) and in others the application duplicates a claim in another application. Claims to the seabed below the low water mark are included on the basis that such land is not 'land in the Northern Territory' for the purposes of the Act.
27. In cases where claimed land has been added to Schedule 1 of the Act, the number and date of the amending Act is shown.
28. In a number of cases applications have been withdrawn in order to facilitate the granting of title pursuant to Northern Territory legislation. Where an application is taken to be finally disposed of by operation of a provision of section 67A of the Act, the relevant subsection number is shown.
29. Table 3 to Appendix 3 has been divided into two sub-categories in order to reflect the current status of each application which is still within the jurisdiction of the Commissioner. During the year, the parties to the applications listed in Table 3 have been required to report on any progress and reasons for apparent delay in the completion of those applications. It is anticipated that there will be progress in finalising those claims in the next financial year.

SEA CLOSURE APPLICATIONS

30. There are no extant referrals to the Commissioner made under section 11(3).
31. As noted in the Review of Part V of the Act referred to in the next section of this report, the Commissioner retains the function of considering sea closure claims referred by the Administrator of the Northern Territory under the *Aboriginal Land Act 1978* (NT).

REVIEW OF PART V OF THE ACT

32. In the previous reporting period, the former Minister for Indigenous Australians, the Hon Ken Wyatt AM, requested the Commissioner, pursuant to section 50(1)(d) of the Act, to conduct a Review of the future operation of Part V (Aboriginal Land Commissioners) of the Act.

33. On 17 June 2022, the Commissioner commenced the Review by advertisement in Northern Territory and national newspapers, and by letter to key stakeholders and other potential stakeholders with an identifiable interest in the matter.
34. The Commissioner provided the Review to the Minister on 30 June 2023, as required under the Terms of Reference for the Review.

APPLICATION FOR ADMINISTRATIVE DECISIONS JUDICIAL REVIEW

35. On 25 August 2021, the Gregory National Park / Victoria River Land Claim (No. 167) and the Legune Area Land Claim (No. 188) Report No. 74 was published. As noted in the Annual Report for the year ended 30 June 2022 at [35], as a result of that report, proceedings were initiated by the Northern Territory Government in the Federal Court of Australia under the *Administrative Decisions (Judicial Review) Act 1977* (Cth).
36. The Fitzmaurice River Region Land Claim (No. 189) Report No. 76 was provided to the Minister and to the Administrator of the Northern Territory on 22 June 2022. The Northern Territory then sought to amend the application referred to in the preceding paragraph to challenge that part of that report which recommends the grant of some area of the beds and banks of the Fitzmaurice River which is seaward of the line across which the Northern Territory and the Commonwealth say is not ‘land in the Northern Territory’ under the Act.
37. A hearing was held before Justice Bromberg in the Federal Court on 20 October 2022 and orders were made granting the Northern Territory leave to amend the application. The argument then proceeded on the principal issue. The principal issue in each claim is the geographical extent of ‘land in the Northern Territory’ as that term is used in the Act, and in particular whether it extends to include all the areas in respect of which the Commissioner made a recommendation to the Minister following the inquiries.
38. The judgment on the principal issue has been reserved.

EXPENDITURE STATEMENT

39. The expenditure of the Office of the Aboriginal Land Commissioner is included in the financial statements forming part of the NIAA Annual Report submitted under section 63 of the *Public Service Act 1999* and section 46 of the *Public Governance, Performance and Accountability Act 2013*, and is subject to scrutiny through the Senate Estimates Committee process.
40. The statement appearing in Appendix 2 is based upon information provided by NIAA and has not been verified by the Commissioner.

JR MANSFIELD
Aboriginal Land Commissioner
1 September 2023

79	(172)	Daly River Region	26 June 2023
	(183)	Douglas/Daly River Region	
	(235)	Daly River Region II	

Note 1: Report No 1 (Borrooloola) includes a recommendation which encompasses all the land claimed in Application No 72 (McArthur River).

Note 2: On 24 December 2018 the Commissioner provided to the Minister a Report on a review of detriment issues relevant to 16 land claims previously recommended for grant but not yet finalised, pursuant to s 50(1)(d) of the Act. The Detriment Review addressed land claims the subject of Report Nos 9, 29 and 61-68.

Note 3: Report No 16 (Kenbi (Cox Peninsula)) contains seven decisions on procedural and jurisdictional issues arising in Application No 37 (Kenbi (Cox Peninsula)) between 1979 and 1982.

Note 4: Applications No 11 (Douglas (Wagaman)) and No 12 (Umbrawarra Gorge-Jindare (Wagaman)) were amalgamated with Application No 32 (Upper Daly) and reported on in Report No 37 under the name of Upper Daly, which was furnished in 3 volumes published on the respective dates indicated.

- Note 5: Application No 18 (Dum-in-Mirrie Island) was amalgamated with Application No 37 (Kenbi (Cox Peninsula)). Report No 40 (Kenbi (Cox Peninsula)) was set aside by the Federal Court of Australia (See *Northern Land Council v Aboriginal Land Commissioner* (1992) 105 ALR 539). The Application has since been the subject of Report No 59 (Kenbi (Cox Peninsula)).
- Note 6: Application No 111 is a claim to two adjacent former pastoral properties known as Gimbat and Goodparla. The application in respect of Goodparla area was the subject of a settlement agreement between the Northern Territory and the Northern Land Council and the relevant land description was added to Schedule 1 of the Act by way of legislative amendment in 2019 see Table 2 In Report No 48 (Jawoyn (Gimbat Area), Alligator Rivers Area III (Gimbat Resumption-Waterfall Creek) (No 2) Repeat) the part of the claim in Application No 111 dealt with is described as the Jawoyn (Gimbat Area) Land Claim.
- Note 7: The land recommended for grant in Report No 49 includes the whole of the land claimed in Applications No 34 (Borroloola No 3) and No 117 (South West Island).
- Note 8: The Minister wrote to the Commissioner on 7 October 2022 supporting the report being included in the FCA proceeding *Northern Territory v Aboriginal Land Commissioner & Ors* (NTD19/2021) and advised she did not intend to take any action in relation to the Report until the outcome of this matter is known.

TABLE 2: Applications which have been withdrawn or otherwise disposed of without an inquiry (Note 9)

Note 9: Where an application has only been partially withdrawn or only part of the claim area added to Schedule 1, the application is referred to in the table relevant to the remaining area under claim.

Note 10: The claimed land was later included in Application No. 19 (Alligator Rivers Stage II). Application No. 4 was not proceeded with. Refer to Report No. 10.

Note 11: The whole of the land claimed in Applications No. 34 and 117 was recommended for grant with Application No. 30 in Report No. 49 (Warnarrwarnarr-Barranyi (Borrooloola No. 2)).

Note 12: The claimed land was included in the recommendation for Borrooloola (Application No. 1) in Report No. 1.

Note 13: Following the decision of the High Court in *Risk v Northern Territory of Australia* (2002) 210 CLR 392, claims over a seabed (below the low water mark) are not taken to be land in the Northern Territory for the purposes of the Act.

Note 14: The claimed land was included in the recommendation for Palm Valley (Application No. 48) in Report No. 57.

Note 15: On 26 February 2021, the Northern Land Council advised that the Claimants had resolved to prepare and file an application under the *Native Title Act 1993* (Cth) (Native Title Act) over the claim area for the Katherine Region Land Claim No. 240, and no longer wished to pursue the claim under the *Aboriginal Land Rights (Northern Territory) Act* (Cth). The claimants requested the Commissioner to defer the exercise of discretion under section 67A(7) of the Act until the registration of that claim under the Native Title Act was completed. On 27 May 2021, solicitors for other potentially interested persons indicated their consent to that course of action. Following notification that the claim had been registered under the Native Title Act, the Commissioner disposed of the Application on 5 April 2022 by a determination pursuant to section 67A(7) of the Act.

Note 16: The claimed land was included in the recommendation for Kenbi (Cox Peninsula) (Application No. 37) in Report No. 59 and is therefore no longer considered to be within the Commissioner's jurisdiction. Parties have advised Application No. 241 will be formally withdrawn when agreed actions associated with the resolution of Application No. 37 (Kenbi (Cox Peninsula)) have been finalised [it is noted that, subsequent to the current reporting period, the Northern Land Council by notice to the Commissioner on 4 July 2023 withdrew the Belyuen Area Land Claim No. 241].

TABLE 3: Applications which have not been finally disposed of**(a) Applications the subject of incomplete inquiries**

	Upper Daly (Repeat)
130	Note 20
	Wakaya Alyawarre (Repeat)
182	
	Ban Ban Springs Area
238	
	Coomalie Shire/Deepwater Area

Note 17: The land claim application was received on 31 March 1978. Before an inquiry was commenced, the parties agreed to a settlement which was embodied in a Northern Territory statute, the *Cobourg Peninsula Aboriginal Land and Sanctuary Act 1981*, pursuant to which the claimed land was vested in perpetuity in a land trust established under Northern Territory law. On 4 January 1982 the Northern Land Council wrote to the then Commissioner indicating that subject to compliance with certain provisions of the abovementioned legislation it was expected the claim would be withdrawn in the near future. Although no formal withdrawal has ever been received the claim was for practical purposes treated as disposed of until recent years. The Northern Land Council, the claimants and the Northern Territory Government were in negotiations for a number of years to resolve outstanding issues to progress the land claim.

Until recently, the Commissioner’s attitude was that as the land is vested in a body which already holds the land on behalf of Aboriginal people he is constrained from exercising any function under s 50(1) of the Act until the consent of the land owner (as required by s 50(2C)) is received. However, correspondence from key parties during the 2019–2020 reporting period supported the view that the grant of land under the *Cobourg Peninsula Aboriginal Land and Sanctuary Act 1981* was not a grant that impeded the functions of the Commissioner in conducting

an inquiry. On 27 March 2021, the Commissioner notified his intention to commence an inquiry into Application No. 6. The claim is currently subject to an inquiry as discussed above at [17].

Note 18: The parties have advised that Application No. 127 (Kenbi (Cox Peninsula – Section 12)) will be withdrawn when agreed actions associated with the resolution of Application No. 37 (Kenbi (Cox Peninsula)) have been finalised. Application No. 127 therefore remains within the jurisdiction of the Commissioner. While there is at present no prospect of further action on the part of the Commissioner, should any issues arise in respect of the settlement process of Application No. 37 the claim may be pursued by inquiry.

Note 19: On 8 December 2022 the Northern Land Council notified the Commissioner that a Deed of Settlement in relation to the Upper Daly (Repeat) Land Claim (No. 128) had been executed, but that a request had not yet been made to the Minister to add the land claim area to Schedule 1 of the Act.

Note 20: The Commissioner commenced an inquiry into the claim on 22 August 2017. On 13 November 2019 the Northern Territory notified the Commissioner that an Indigenous Land Use Agreement setting out the terms of settlement to resolve the claim had been fully executed. On 18 November 2019 a notice of withdrawal on behalf of the claimants was lodged with the Commissioner in respect of the Canteen Creek community, consistent with the agreed terms of settlement. The balance of the claim area (NT Portion 4246) is the subject of a request to the Minister to add to Schedule 1 of the *Aboriginal Land Rights (Northern Territory) Act 1976*. In these circumstances, the hearing does not need to be progressed.
